backend/src/routes/health.routes.js

```
1.  const express = require('express');
2.  const router = express.Router();
3.
4.  /**
5.   * @function healthCheckController
6.   * @description Controlador que verifica si la API está disponible
7.   * @param {object} req - Objeto de petición
8.   * @param {object} res - Objeto de respuesta
9.   */
10. const healthCheckController = (req, res) => {
11.   res.status(200).json({
12.     status: 'ok',
13.     message: 'API is up and running',
14.     timestamp: new Date().toISOString()
15.   });
16. };
17.
18. /**
19.  * @route GET /api/health
20.  * @description Endpoint de health check para monitoreo
21.  * @access Public
22.  */
23. router.get('/', healthCheckController);
24.
25. module.exports = router;
26.
```
